KIKUIMODO

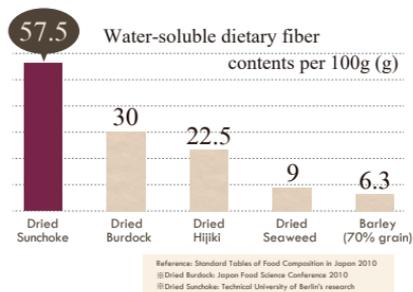

Health Benefits of Sunchoke

‘Kikuimo’ — Sunchoke, also known as Jerusalem artichoke, is a nutritious root vegetable from the sunflower family.

It’s one of nature’s richest sources of inulin — a water-soluble dietary fiber that helps support gut health as a prebiotic, and assists blood sugar balance after meals.

True Wellness Begins With What We Choose Every Day

Born in Japan, our brand was created to make everyday wellness simple and natural.

Crafted in Kumamoto from carefully selected organic Sunchoke, each

product offers pure quality.

Thoughtfully made for modern living, it brings small moments of comfort and balance — perfect for busy lifestyles and daily wellness routines.

Organic Sunchoke Tea bags

Made from 100% organic Sunchoke, offering a gentle sweetness and a rich, toasty aroma.

The chips are carefully roasted over an open flame and far-infrared heat, then packed into plant-based tea bags.

Naturally caffeine-free and additive-free, it's a soothing drink that can be enjoyed safely by both children and adults — perfect for relaxing moments throughout the day or before bedtime.

Tea bags (2g×30pcs)

Gluten-free Sunchoke Cookies

Made with brown rice flour and organic Sunchoke, these cookies have a gentle sweetness and a delightfully crisp texture.

They are certified gluten-free, egg-free, and dairy-free, and because the dough cannot be mass-produced, each cookie is carefully shaped and baked by hand with genuine care.

8pc pack (40g)

High-purity Sunchoke Tablets

These high-purity tablets are made from 99% organic Sunchoke.

Each tablet is a plant-based supplement rich in the natural nutrients of Sunchoke — completely free from preservatives and artificial flavorings.

You can take it with water or chew it directly to enjoy the mild, natural taste of Sunchoke.

Tablets (250mg×150pcs)

Sunchoke Inulin Powder Sticks

Our inulin powder combines the natural goodness of Sunchoke with plant-based inulin extracted from sugarcane to enhance its prebiotic benefits.

This unique blend offers a higher inulin content, supporting healthy digestion and gut balance.

Simply mix it into your daily meals, yogurt, or milk for an easy boost of natural fiber.

Stick Packs (1.3g×30pcs)

To Ensure Pure Quality You Can Trust

JAS-certified for organic plants and processed foods

Fully Integrated Freshness - Farm to table

Inulin contained in Sunchoke breaks down over time, so they should be processed immediately.

Our Sunchoke is rich in minerals and is grown in the volcanic ashes and black soil at the foot of Mt. Aso, Kumamoto.

Each by hand, we remove damaged parts and dirt from the Sunchoke.

Our factory is certified with the global food safety standards FSSC22000.
